OUR STORY

Shadow Systems was founded by real-world shooters who asked a simple question: why can't factory guns come with custom features?

The Shadow Systems team is made up of combat veterans, former law enforcement officers, and competitive shooters. With their unique perspectives on shooting, they have developed handgun features that vastly improve pistol shootability while maintaining bet-your-life reliability.

Shadow Systems pistols combine premium features, production pricing, exceptional shootability, and a full lifetime warranty, bringing the shooter everything they need right out of the box. While Shadow Systems pistols may be pretty enough to be safe queens, they are designed to be hardcore tools for a multitude of use cases.

Every one of our products is built in Plano, Texas with parts made in-house.
